# Q2 - How do accepted and rejected loan data differ among different locations?

Attributes investigated here are: Loan Amounts, Address States, Latitude & Longitude.

Total Issued Loan Amounts for Accepted Applicants

Loan Amounts
9,200 to 83,825,875

Loan Values in $

9,200 [gradient bar] 83,825,875

Total Loan Size Requested for Rejected Applications.

Looking through the map of accepeted and rejeccted loans across the US, I would say that regions of loan activity are generally around the same US states, with California being a large state with many loan applicants both with accepted and rejected loans.

Loan Amount Requested
All values

Loan Value Amount Requested in $

382,250 [gradient bar] 1,365,804,698
