# Q1 - How do the attributes differ between borrowers who pay back their loans versus those who don't?

Attributes investigated here are: Loan Amounts, Employment Lengths and Loans Issued.
Average Loan Amount Issued Per Month

Sum of Loans Issued and their respective Loan Grade.

Sum of Loan Amount vs Length Of Applicants Employment.

There are several different attributes to loan applicants who either payback or default from their payments from LendingClub.

The Average Loan Amount Issued per Month shows that on average larger loans are paid back per month compared to those that are not full paid back.

Sum of Loans issued also show that a larger value of better grade loans are Fully Paid than there are not ful paid back.

Borrowers with longer than 10 years of work also hold the largest value of fully paid back loans.
